

ProBender 35t Powered Bender

Model 088 (Standard Bramley ProBender 35t)

There are many bending tooling options available for the machine to provide a wide range of bending operations. Optional accessories such as Pipe Bending / Radius tools can further increase the versatility of the machine. This multi-function aspect allows the ProBender 35t Bending Machine to meet the diversified needs of the metal forming industry.

Advantages

- Fast and easy bending of a wide range of materials
- High accuracy and control of bends
- Reduction in physical effort required
- High quality construction throughout

Details

Mild Steel Bending Capacity:

- Flat Bar: 100mm x 10mm / 60mm x 12mm / 50mm x 16mm
- Square Bar: 25mm x 25mm
- Round Bar: Ø25mm
- Shipping: 300kg / 1350 x 700 x 980mm

Optional Extras

- Model 88-70 Pipe Bender Attachment
- Model 88-80 Rebar Bending Attachment
- Model 88-90 Pipe Notcher Attachment
- Model 88-50 Round Tube Bending Attachment
- Model 88-50SQ Square Tube Bending Attachment
- Model 88-04L Large Former Attachment

See overpage for further details

Proper Environmental Conditions

- Ambient temperature: 0 - 50°C
- Relative humidity: 20 - 85%
- The required space around the machine is at least 1000 mm.

Model 88-70 Pipe Bender Attachment

Model 88-50 Round Tube Bending Attachment

Model 88-80 Rebar Bending Attachment

Model 88-90 Pipe Notcher Attachment

Questions to ask when purchasing

How much bending do you do?
Are you a manufacturer who does high volume bending?
Do you bend larger size items?

Are there health and safety issues with your current bending setup?
Is having a multi-functional bender a requirement?
Is having readily available spares important to you?

ProBender 35t Accessories

Model 88-70 Pipe Bender Attachment

Pipe Bender Frame and Formers for pipe bending from 1/2" to 2" N.B.

Model 88-50 Round Tube Bending Attachment

Bender Frame and Formers for tube bending from 1/2" - 1" N.B. (1-1/8" optional additional supply).

Model 88-50SQ Square Tube Bending Attachment

Bender Frame and Formers for square tube bending from 1/2" - 1" nominal size across flats.

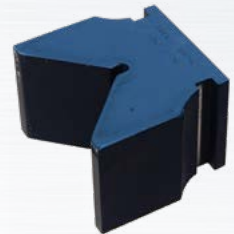

Model 88-80 Rebar Bending Attachment

Rebar Bender Frame and Formers for forming rebar.

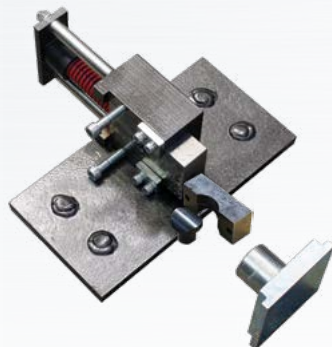

Model 88-04L Large Former Attachment

Attachment designed to bend mild steel (cold):
75 x 16mm / 50 x 20mm as an optional larger former.

Model 88-90 Pipe Notcher Attachment

For easy notching of pipes for lateral weld connections. Different sizes dies available.
